

Easily create original and unique composites.  
Hundreds of templates to use or design your own!

LP Composite Designer

Features

- Over 400 templates included
- Eye Dropper Tool to match colors perfectly
- Easy Effects Tool for masks, shadows and borders
- Includes rulers and guidelines for precise alignment
- Ability to save original templates for repeat use

An add-on tool to LP Digital Studio, LP Composite Designer is the easiest and fastest way to create beautiful and unique composites! Design composites for use in flush albums, greeting cards, calendars, magazine covers or even custom vignettes. And you can import Photoshop® PSD files as the building block for templates.

The LP Composite Designer gives you the freedom to add, remove, resize, tilt, rotate and even move image layers as you are designing your composite image. Best of all your lab will be able to individually color correct the images used in your composite before they print it!
