

LP Composite Designer

An add-on to LP Digital Studio, LP Composite Designer is the easiest and fastest way to design beautiful and unique composites. It's as simple as drag and drop! Create composites for use in flush albums, greeting cards, calendars, magazine covers or even custom vignettes.

FEATURES

- Includes over 400 hundred templates that can be easily modified
- Eye dropper tool enables you to match colors perfectly
- Effects tool for adding drop shadows, sloppy borders, fades, masks and more
- Snap to grid, rulers and guidelines for precise alignment
- Text tool for adding text to your composites
- Manage templates feature allows you to save and reuse your favorite templates
- Ability to change opacity of layers for overlays and backgrounds
- Photoshop® PSD files can be imported as the building blocks for templates
- You can add, remove, resize and move image layers
- Layers can be tilted, flipped and rotated
- Images can be opened in an external editor (e.g. Photoshop®)
- Borders can be added, and the size and color can be adjusted
- Zoom tool allows you to zoom up to 400%
- Error checking tool ensures alignment of layers
- Tint can be added to layers and images
- Rubber band cropping tool for adjusting the crop on each image
- Images can be set to Black & White or Sepia
- Retouching services on individual images can be ordered
- Ability to export and import templates

LP Composite Designer is a key component of the LabPrints workflow advantage. All of our tools are designed to work seamlessly together. By purchasing this add-on, you will save time, create beautiful composites... and increase profits.
