LP Production Studio

Features

- Option to print high-resolution composites yourself
- Streamlined Photoshop® compatibility
- Hundreds of unique templates to choose from
- Can be used alone or in conjunction with our other tools
- Ability to modify and save templates for repeat use

LP Production Studio is an enhanced version of our LP Composite Designer. A full featured flush album design tool, you can also export your composites as layered Photoshop® PSD files. Or send them to your lab for color correction and printing. Designing creative composites is fast and easy... just drag and drop images onto the templates!

LP Production Studio comes loaded with hundreds of ready to use templates. Templates can be modified and saved for repeat use. Layers can be tilted, flipped and rotated. Add tint to layers and images, add add text to your composites.
