

LP Production Studio

With LP Production Studio you will be able to quickly create original and unique composites. Plus, you will be able to print your own digital composites and album pages.

FEATURES

- Option to export high-resolution composites
- Streamlined Photoshop® compatibility
- Nearly a thousand unique templates to choose from
- Can be used alone or in conjunction with our other software components
- Ability to modify and save templates for repeat use
- Option to send your composites to your lab for color correction and printing
- Effects tool for adding drop shadows, sloppy borders, fades, masks and more
- Snap to grid, rulers and guidelines for precise alignment
- Text tool for adding text to your composites
- Manage templates feature allows you to save and reuse favorite templates
- Infinitely adjustable cropping on each image
- Images can be set to Black & White or Sepia tone
- Retouching services on individual images can be ordered
- You can add, remove, resize and move image layers
- Layers can be tilted, flipped and rotated
- Borders can be added, and the size and color can be adjusted
- Tint can be added to layers and images
- Slide show feature for full screen presentation and preview
- Adjust opacity of layers for overlays or backgrounds

LP Production Studio is a key component of the LabPrints workflow advantage. All of our tools are designed to work seamlessly together. By purchasing this add-on, you will save time, create beautiful composites and increase profits.
