

Project images in various print sizes and create beautiful presentations to your clients ... sure to increase sales!

Features

- Project images in actual size
- Option to display virtual frames
- Easy ordering tool
- 'Yes,' 'no' and 'maybe' ranking tool
- Enhanced slide show capabilities
- Images can be displayed in B&W and Sepia

Project on monitor or wall!

LP Projection Tool is the best way to show your clients how their finished, framed portraits will look. You will be able to project images in actual size. Show the impactful difference between an 8X10 and a 30X40. Really wow them by projecting their finished album pages and composites. Design a slideshow with music and smooth transitions.

LP Projection Tool also comes with a convenient ranking tool, making it easier for your customers to choose their images. LP Projection Tool can be used as a stand alone tool and/or with other LabPrints software.

Try FREE for 30 days! Purchase as part of a product bundle to save money, or alone for \$299.
